Combination

Phoenix Progressive Table System

The Phoenix Progressive Table System has been developed with both the player and operator in mind. Attractive chip sensors, vivid animated LCD displays, instant jackpot updates and player win messaging all make this system the one the players prefer!

For the operator, the Phoenix Progressive Table System provides real time reporting, high security, extensive management reports, a proven stable system and personalization features that enable each casino to have its own special look! Buy or lease options available so why pay never ending license fees.
